Dozens of Engaging
Modular Topics

The collage displays three key components of the facilitation materials:

- Instructor Prep Guide:** Contains sections for Unit Description, Unit Materials, and Success Traits. The Unit Description explains the importance of critical thinking skills and lists topics like errors in thinking and controlling thoughts. Unit Materials include 4 decks of playing cards. Success Traits list skills like creating a future, making smart decisions, and asking questions.
- Context and Setup:** Includes 'Historical' context about Socrates and the Socratic Method, and 'Social' context about the Socratic Method's purpose. It also features a 'Personal' section with a quote from Plato.
- PS630: Job Transitions Quiz:** A 10-question multiple-choice quiz covering topics like job transitions, employment contracts, and job search strategies.

The video segment features a man in a grey polo shirt speaking. Overlaid on the video is a flowchart titled "Think Back ...". The flowchart consists of three boxes connected by downward arrows:

- How did it make you feel?
- Did you act on those feelings?
- Did your actions cause new problems?

The flowchart also includes a lightbulb icon next to the second question.
